

World Sinus Health Awareness Day

Sample Patient Letter/Message

Dear Patients:

[NAME OF PRACTICE] is pleased to support the World Sinus Health Awareness Day on September 13, 2023. This effort, which was founded by the American Academy of Otolaryngology–Head and Neck Surgery in collaboration with corporate partners, Medtronic and Op nose. It is designed to inform and educate patients around the world about the causes of your nasal and sinus symptoms as well as how you can improve these and when you should seek additional specialized care.

Understanding the options for nasal and sinus symptom treatments can be overwhelming. The focus of the World Sinus Health Awareness Day is to provide accurate and reliable information about different treatment options for the spectrum of nasal symptoms, disorders, and diseases as well as how you can improve these and when you should seek additional specialized care. To access all the resources developed for World Sinus Health Awareness Day 2023, go to www.ENTHealth.org/SinusDay and visit my site at [\[add your practice's URL here\]](#).
